argue a proposition that seemed to him self-evident. The city has awakened to its obligation to the sick poor. The city does not longer propose to have men and women hurt on the streets hustied off to the almshouse. Only the cest of a new building has stood in the way of already acquiring a city hospital. Now the city is offered a fully-equipped building without any charge, for such time as it desires, the donor reserving only the right of using its clinical facilities. The city has a need it cannot supply. The college has a hospital and a demand for clinical advantages.
